## Grain Dryer Engineering Bulletin

**New Product Now Available:** Dryer Master® now available on the Chief Dryer.

Chief Industries, Inc. is now pleased to announce that our commercial dryer (Chief Dryer) now has the option to include the Dryer Master® DM510.

- The Dryer Master® DM510 is a powerful tool to help optimize the dryer's performance by constantly analyzing moisture, temperature, volume and throughput and then controlling the throughput. It can help reduce product shrinkage due to over dryer, reduce energy cost, and produce a consistent and better product.

\* Still available on our Caldwell Dryer as well.
