Catwalk and Tower Engineering Bulletin

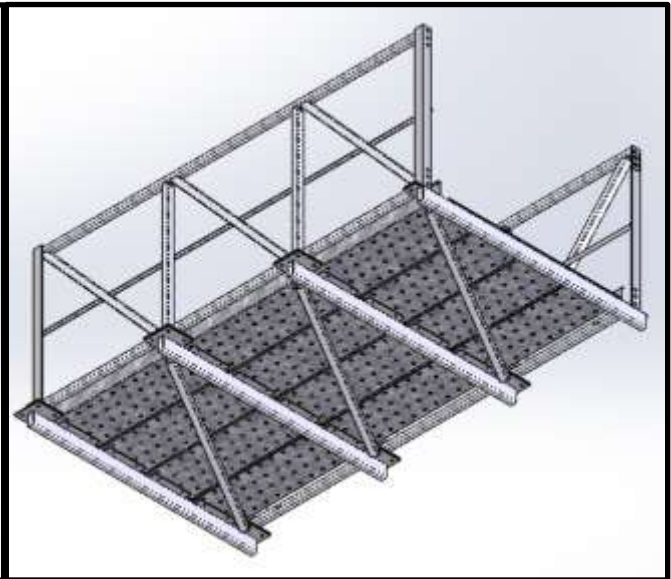

New Product Now Available: Full Floor Walkway on Chief #2 and #4 Catwalk

Chief Agri Industrial is pleased to announce the introduction of full floor walkway on #2 and #4 catwalks. The walkway is manufactured by Chief and has built in toe boards on each side of the catwalk. The walkway is designed to support personnel loads only and the cross members of the catwalk provide support for a conveyor. Walkway available for any width of #2 and #4 catwalk.

The walkway increases the weight of the catwalk and also increases the snow load on the catwalk. Depending on the application, the full floor walkway may reduce the maximum freespan of the catwalk. Please check with engineering prior to ordering.
